

Welcome to the world of the Curious Creators' Club, a diverse group of kids representing every child's spirit of adventure and creativity! These six young heroes, with their distinctive talents and unwavering enthusiasm, embody the joys and challenges of working together to achieve a common goal.

Join the club as they face an unexpected quest to help the town mayor solve the problem of a missing band. Stepping up with an array of ingenious ideas—from sourcing local music legends to crafting their instruments—the club's journey is a testament to creativity and an endearing example of growth. Readers will find themselves rooting for these characters as they devise their plans, proving that age is just a number when it comes to solving problems with imagination.

The Curious Creators' Club doesn't just represent fictional characters; they embody our hopeful future, painting a world enriched by diversity, teamwork, and creative thinking. In the heartwarming resolution, we are treated to a symphony of ingenuity—the makeshift band stands as a beacon of what children can achieve when their creativity is supported by encouragement.

See what other teachers are saying:

"Abby stole my heart! I love that I was able to get into her mindset and realize anything's possible. This book gives you the courage to do anything you set your mind to. The Adventure of the Curious Creators' Club shows true strength, determination, and grit." – Kate W. 5th Grade Teacher

"The Festival of Possibilities is in trouble! Miss Mayor doesn't know what to do! This book shows the importance of perseverance and teamwork. The Curious Creators learn a valuable lesson that working together and believing in yourself makes anything is possible! I can't wait to see what other adventures await the Curious Creators' Club!" – Amy S. Kindergarten Teacher

"A beautiful story of perseverance and the magic of creativity. The Adventures of The Curious Creators' Club is a lively story for all ages!" – Claudia R. Librarian

# The Adventures of the Curious Reators Club

By Katie Trowbridge  
and Jenna Kmitch

Illustrated by  
Ponyo Nguyen

Age 11, loves learning new facts and looking things up to learn even more.

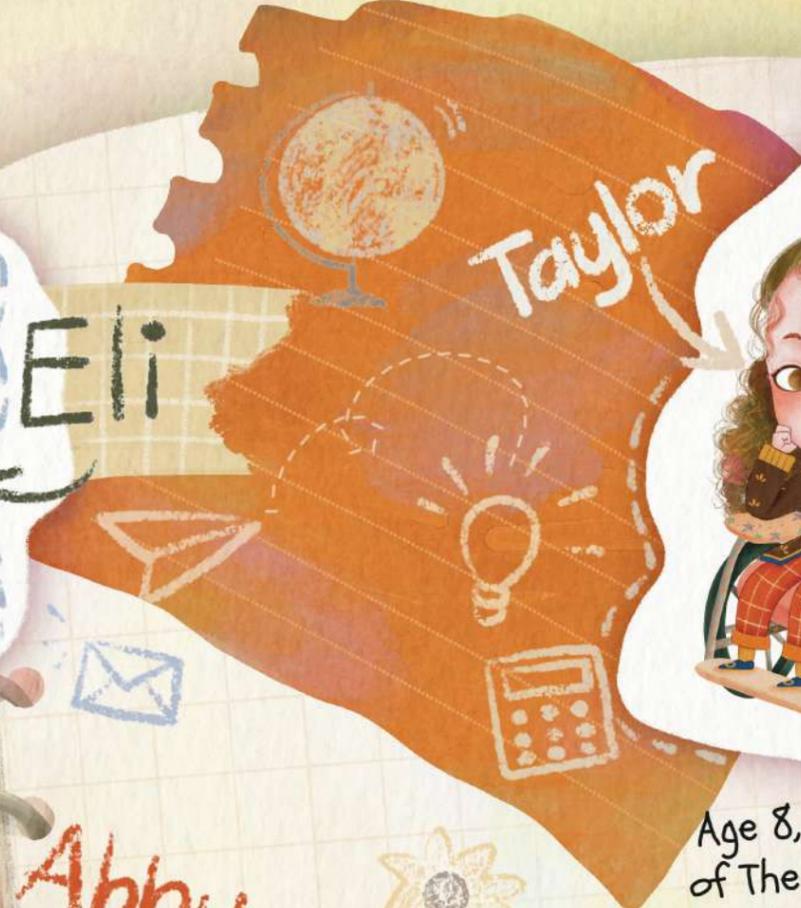

Charlie

Age 9, keeps everyone involved and working as a team.

Eli

Taylor

Age 11, being the oldest always tries to lead the team in the right direction.

Victor

Age 11, doesn't believe in being creative or working as a team.

Age 10, believes we can always learn something even if it doesn't go as planned.

Abby

Age 8, is the main writer of The Curious Chronicles, keeping track of their adventures.

Evelyn

Age 7, is always coming up with new ideas and loves trying new things.

Riley

Miss Mayor, mayor of Innovation City

Mayor

NEWS

to school, you know  
chilly day

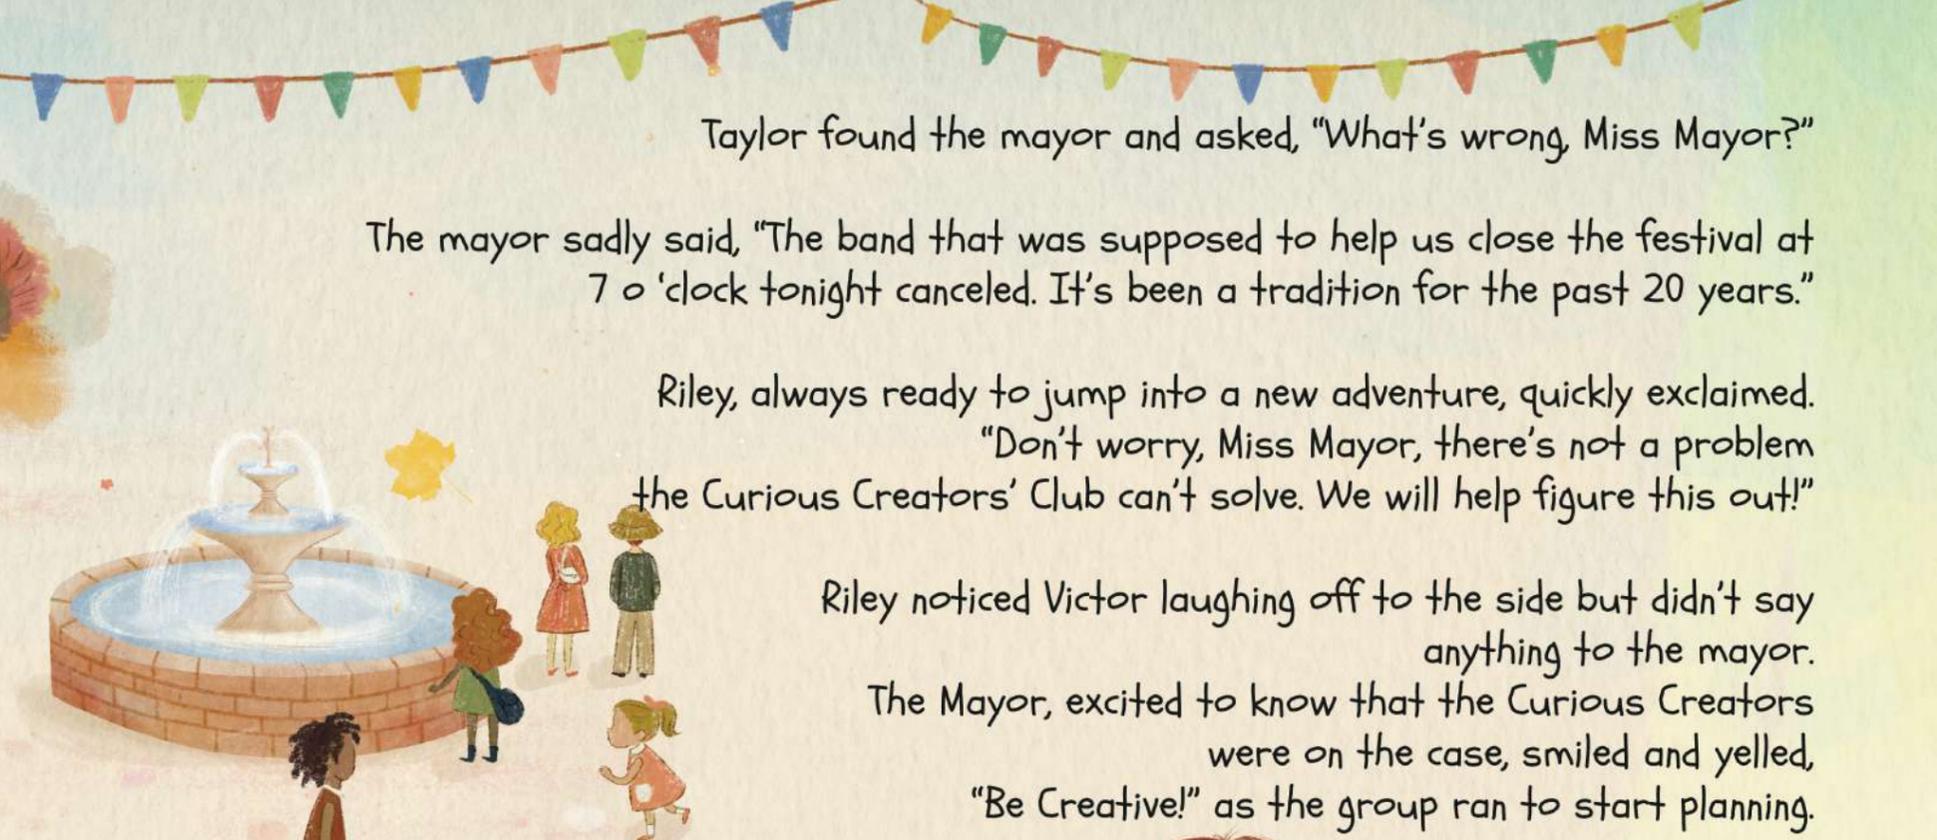

Good morning to school, you know  
chilly day to be not like listen,

The Curious Creators' Club loved to explore new ideas, so they were headed to their favorite annual event - The Festival of Possibilities.

When they arrived, the mayor was pacing back and forth in front of the entrance. Charlie said, "Something must be wrong. Let's go see if we can help."

Taylor found the mayor and asked, "What's wrong, Miss Mayor?"

The mayor sadly said, "The band that was supposed to help us close the festival at 7 o'clock tonight canceled. It's been a tradition for the past 20 years."

Riley, always ready to jump into a new adventure, quickly exclaimed, "Don't worry, Miss Mayor, there's not a problem the Curious Creators' Club can't solve. We will help figure this out!"

Riley noticed Victor laughing off to the side but didn't say anything to the mayor.

The Mayor, excited to know that the Curious Creators were on the case, smiled and yelled, "Be Creative!" as the group ran to start planning.

The Curious Creators' Club sat at the playground to make a plan. Evelyn asked, "Is this a good idea? Do we know enough about music?"

Abby looked around at her friends, all seeming a little defeated, "If we don't know enough, we can always learn more. We can do this as long as we work together."

Victor appeared from behind the tree with a wicked smile. "I don't know why you're even bothering right now. The band isn't coming, I made sure of that when I called and told them the festival was canceled. This silly festival is finally over."

"Victor, that's not a great attitude to have, and that wasn't a kind thing to do," Taylor said. "Abby is right, everyone, we have five hours before there needs to be some type of band, so we need to figure out the best way for us to help save our festival."

Being as open-minded as he could, Eli scanned the playground and asked, "Okay, so what do we think? Does anyone have any ideas?"

Quickly, they started to brainstorm.

Abby suggested, "We should find another band, but I don't know any. We will have to get creative if we want to solve this!"

Charlie replied, "I'm going to see if any other bands are in town. Maybe they would come play." Charlie grabbed his smartphone and started to do some research.

"Couldn't we create a playlist and attach it to a speaker?" questioned Taylor.

"We don't have big enough speakers to connect to," answered Evelyn.

"What else can we come up with? Remember, try to think outside the box and there's no such thing as a bad idea," said Eli as he started taking notes.

The group thought and thought and thought.

Suddenly, Riley stood up and, with a huge grin, asked, "What if WE are the band?"

Evelyn sighed, "Ugh? How would that work?"

Riley scolded, "Evelyn, try to be open-minded. We can think creatively and find a way."

Taylor added, "Let's think about Riley's idea. What are some of the things we would need to become a band?"

The group became very excited and suddenly, everyone was shouting out their ideas.

"Instruments!"

"Songs!"

"Someone to sing!"

Evelyn, hesitantly asked "Does anyone here know how to play an instrument?"

With a big grin, Abby stood up and said, "Maybe not, but together we can figure it out!"

Charlie, with excitement, began to look up solutions on his laptop. "Hey, everybody, look at this idea I just found. We could make our own instruments from stuff in our houses."

Riley shouted, "That's a great idea!"

"How will we get this all done in the next five hours? It seems impossible," said Evelyn.

Putting his arm around Evelyn, Eli said, "Not if we split up the work!"

Quickly taking charge, Taylor jumped up from the slide and said, "Yea! Let's each go home and find things we could use to make sound, and we'll meet back here in one hour."

Victor watched from behind a bush and thought, "When they get back, I'll sneak away with some of the things they brought, and then their idea will fail."

Abby, always filled with positivity, started running towards home shouting, "This will be so fun. Remember, we are the Curious Creators' Club; we've got this!"

Pushing the dirt around, Evelyn moaned, "This is going to be hard. I don't know what to look for."

"That's ok. Sometimes, hard problems are the most fun to solve. Just be creative!" Eli shouted with his hands on his hips as if he was about to fly off in a cape.

Riley, already running, teased, "Come on, everyone - I bet I will be the first one back."

Everyone went home and searched their garages, rooms, and backyards. They kept asking themselves, "What might we use to make music?"

So, the group started brainstorming and shifting through all the items, making different piles for each instrument they could make.

While the group huddled around Charlie and discussed the next steps, Victor snuck up to the table and took a pair of drumsticks, a fishing line, tape, and a speaker box. "Good luck making anything now," Victor chuckled as he walked away.

Seeing Victor sneaking off, Riley sighed, "Oh, Victor, we can overcome any problem. You are not going to stop us."

The Curious Creators' Club decided that sorting all of the items and creating four different instrument piles of materials would be helpful.

Charlie walked around and looked at all of the piles, "Well, now what do we do? We have all these different piles, but how do they make music?"

# DRUM

# GUITAR

# MICROPHONES

# PIANO

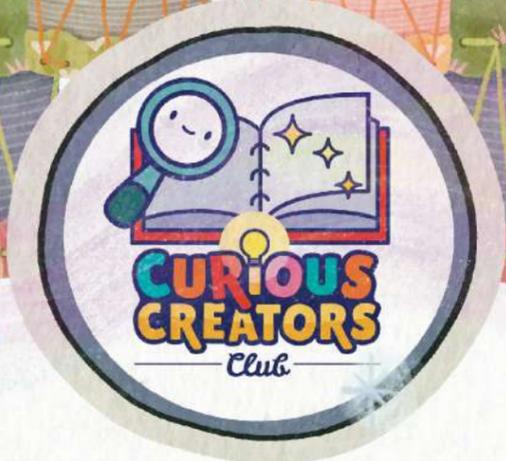

Abby and Riley looked at the tin cans, balloons, and rubber bands.

Riley soon yelled, "Look, we've made our first instrument! We're on our way!"

Evelyn started grabbing things from the guitar pile. Charlie and Taylor jumped in, making two different-sounding guitars!

Eli, getting excited, said, "Wait, I have an idea for a microphone."

Taylor looked at everything they had made so far and was proud! "These are all great ideas. What about a piano? We have to have some kind of keyboard."

Evelyn, Charlie, and Riley got to work right away!

The Curious Creators cheered!  
"Now we are the Curious Creators' Band!"

Glancing at her watch, Taylor exclaimed, "Hey, it's almost time for the show to start. The mayor is going to be looking for us. Let's go!"

They grabbed their new instruments and headed back to the festival.

The mayor was relieved to see them, and when she saw their instruments, she quickly introduced them to the crowd. As the band played, the audience danced and cheered.

Sing along with the Curious Creators!

**“So, everyone, let your minds take flight,  
With creativity as your guiding light.  
No idea is too big, no thought too small,  
Imagination awaits. Embrace its call!”**

**Be curious and let your creative minds soar  
With teamwork, you’ll gain ideas galore!  
Follow your heart and dreams wherever they  
go,  
The sky is the limit when you let your ideas  
flow.”**

“Thank you, Curious Creators,” the mayor was beaming with happiness. “I am so proud of how you all worked together to solve the problem. It was a perfect ending to the Festival of Possibilities.”

Victor peeked out from behind the stage, and Evelyn immediately noticed him. "Victor, your awful plan didn't work at all. When kids work together to solve problems – they can overcome any challenge. Next time, try being curious and creative with us!"

Later that night, the Curious Creators' Club sat around the fire pit at Taylor's house. Sleepy but proud, Evelyn said, "Wow, everyone, we pulled that together and didn't let anything get in our way. I can't wait to tell our story in the next issue of The Curious Chronicles. Maybe we could perform next year... I wonder what we could do?"

Everyone just laughed and said, "Let's solve that problem later!"
